

We've Only Just Begun

# Kansas Technical Institute

Salina, Kansas  
1981

## We've Only Just Begun

We've only just begun to live  
White lace and promises  
A kiss for luck and we're on our way

Before the rising sun we fly  
So many roads to choose  
We start out walking and learn to run

And when the evening comes we smile  
So much of life ahead  
We'll find a place where there's room to grow

We've just begun  
Sharing horizons that are new to us  
Watching the signs along the way  
Talking it over just the two of us  
Working together day to day

Paul Williams

# STUDENTS AND FACULTY

1955 DHC-2 de Havilland

We would like to dedicate this section of the book to a long-time "student" who "graduated" from KTI this spring semester. She arrived at the campus ten years ago, with her first view of the school from the bed of a truck. She was an armed forces veteran trying to make the adjustment to civilian life. The staff and students of the aeronautical department made the new student feel at ease and showed her to where she would spend the long hours of classtime. During those ten years, she has been the friend of every student she has met. These students, in return have helped her in any way they knew how. This year she had completed her stay here. After all the long years of preparation she was ready to accept a new job and a new home. On a Friday afternoon, February 6, she was packed for her flight to Seattle, Washington where she would be given her working attire. A large crowd of her friends were on hand to say good-bye and wish her all the luck on her career.

# Aeronautical Faculty

Not only does Ken Bernard teach aeronautical classes, he is also a Certified Flight Instructor. Having his own airplane and private runway, Ken flies to school when the weather permits.

One could call Ken a back-to-nature guy, for he enjoys backpacking. He would also like to become totally self-sufficient someday. He now has an underground greenhouse, an orchard and garden, and this summer he hopes to have a wind generator.

Rabbit raising for food and entertainment occupies some of Les Blount's spare time, while the rest is devoted to his family.

After several summers of flying a helicopter in Branson, Missouri, Bill Garrison is going to try crop dusting this year.

Roaming around old towns with his metal detector, E.W. Jackson hunts to find whatever he can.

Dave Powers is currently rebuilding a 1948 Rockola juke box.

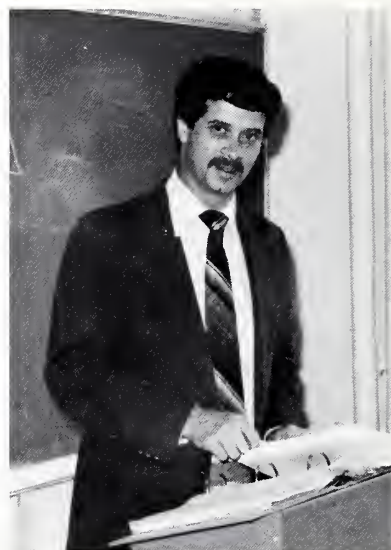

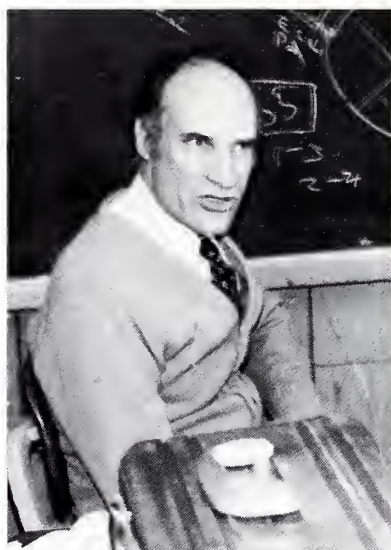

Bike riding and backpacking are a few of the outdoor activities Ray Woodson enjoys.

# Civil Faculty

In order to keep up-to-date with his field, Dr. Herman is working with industry on the pretreatment of water waste and air pollution.

Civil students may have had a hard time getting help from Dennis Shreves. He enjoys spending his time running and puttering around the golf course.

When not at Kansas Technical Institute, Bill Powell might be found somewhere around the state giving his speech on "The Lost Continent—Atlantis" Or you might find him and his wife enjoying a classical concert.

Mr. Powell is also an active member of ASCE (American Society of Civil Engineers).

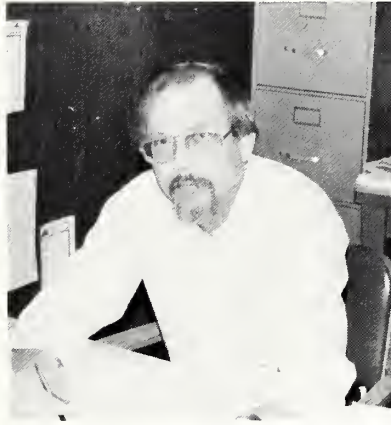

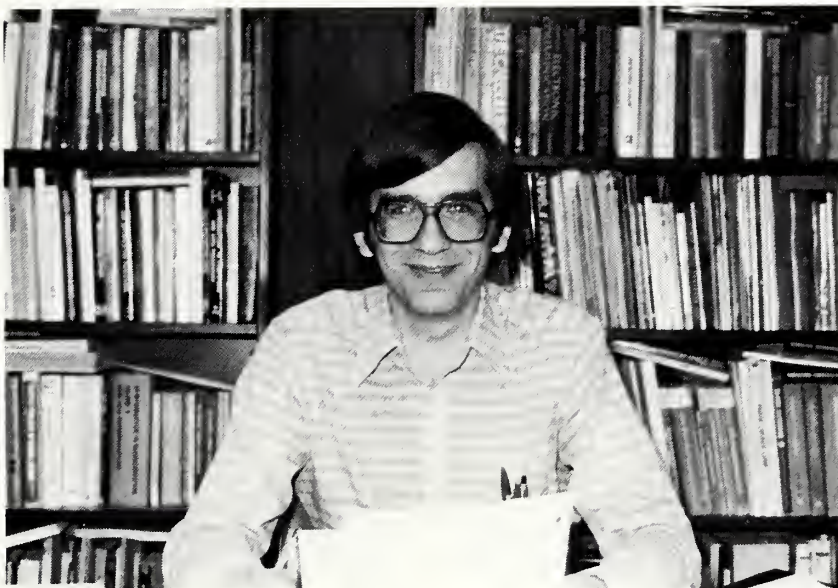

# Computer Faculty & Staff

Whatever the latest craft is Kathy Connelly will give it a try.

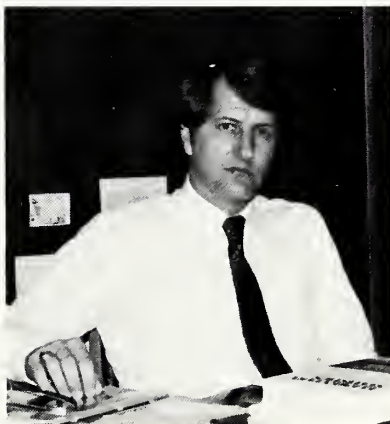

George Harradine's motto is "I haven't let a program beat me yet".

This is David Delker's last year at Kansas Technical Institute. After this school year he will begin working at Control Systems Engineering. He will be in charge of microprocessor base system design. When asked why he was leaving, he answered, "It will be more of a challenge and I can be more creative."

In his spare time Mr. Delker enjoys working with wood. He built a sandbox, swing set, fence, and a shed.

Having his own dark room (color and black and white), John Lloyd enjoys photography.

Lounging around her pool is how Maxine Montgomery plans to spend her summer vacation.

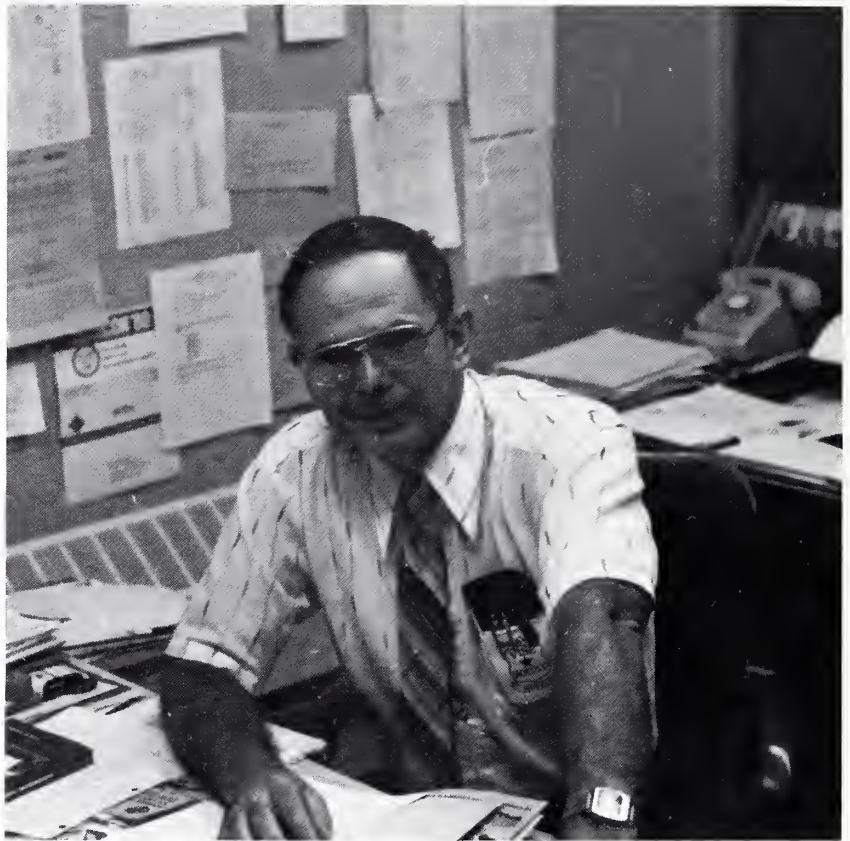

Ken Schoske enjoys sports. This semester he played on the faculty basketball team.

# Electronics Faculty

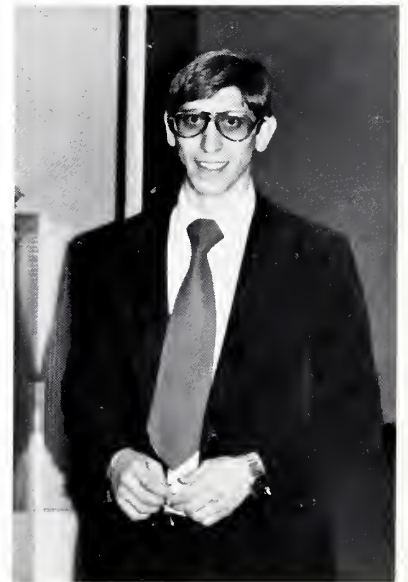

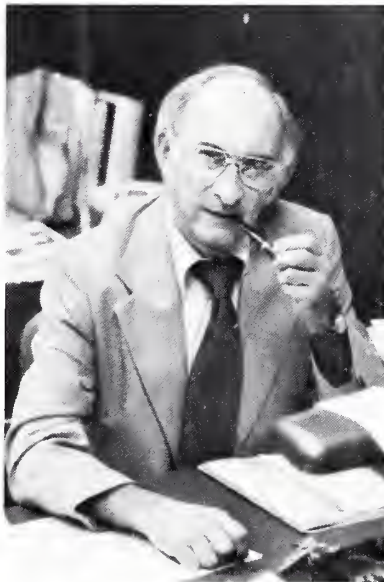

This summer Larry Farmer will be in Houston, Texas, on a fellowship from NASA working with a senior scientist to find the best way to test the power transistors used in a floating power station. Otherwise he would probably be camping in the mountains.

Mr. Farmer has taught here since 1968. His wife is a former EDP student from here.

Buz Baer claims he spends all his time either teaching, working on his airplane, or working on his Corvair.

By converting his garage into a temporary hangar, Ken Stueve is preparing to build a home-made airplane.

# General Faculty

1981 brings several changes for Bud Peterson. He was head sponsor for this yearbook, his wife had a baby girl on March 4, 1981, and he will be living in Houston, Texas, this summer. There he will be working with the NASA researchers on thermal controls. He used to have a milk cow named Blossom. Since he is moving, he decided to sell her and buy a microprocessor.

Next year he will be teaching at Texas A&M. Our yearbook staff would like to thank him for his help and wish him the best of luck at Texas A&M.

Being active in sports in his younger years, Bob Bingam is a very attentive spectator at his sons' activities.

Being a weekend baker and an everynight paper grader, Carol Dupree keeps busy.

When Rapid Robert Homolka isn't zip zapping at the chalkboard, he enjoys snow skiing and fishing with his boys.

# General Faculty

Building furniture from wood is one of Les Kinsler's favorite pastimes.

An occasional sailing excursion or a jog around town are events that Tim Landon likes to do when he's not just goofing off.

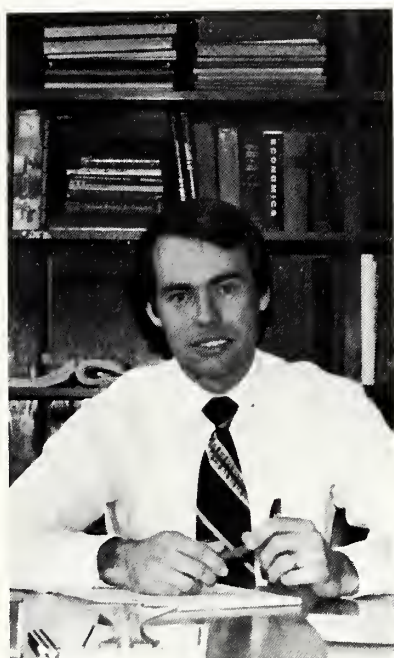

Together is how Reinhart Schwemmer and his wife have built and are still building their house.

If you are in one of Dale Sullivan's classes you may have read something from C.S. Lewis. Mr. Sullivan enjoys reading Mr. Lewis' work.

# Mechanical Faculty

Building grandfather clocks from beginning to end is what John Neal enjoys doing when he is not teaching.

The direction signs you see all over campus were built by Bill Sanders.

In the late 60's and early 70's, Mac Ashburn worked on the Apollo Space Program in Florida. While there, he was also a scuba diver instructor.

Now he enjoys square dancing and is an active member of the Salina Twirlers. He is also working as a consultant on developing solar systems for Energy Marketing Associates, Inc., out of Hays.

# Part-time Faculty

Linda Ireton teaches Developmental English and Reading Improvement.

Rex Russell, left, took over teaching Private Pilot's Ground School.

Linda Nelson teaches Basic Math.

# Secretaries

Roberta Pontious was a big help to the Computer and Electronics departments.

When Roberta Pontious left to have her baby, Donita Makovec replaced her in the Computer/Electronics department.

Jami Schimming, now Monington, is the new Aero secretary.

Debbie Ecklund has to work double time to keep both Civil and Mechanical in order.

Kathy Hazelwood keeps the General Technology department straight.

# Administration

Kathleen Sloan is President Creech's secretary.

President Creech looks at ease in his office. He has been president of KTI since 1976.

Betty Heikes used to be the Aero secretary. Now she is Dr. Jensen's secretary.

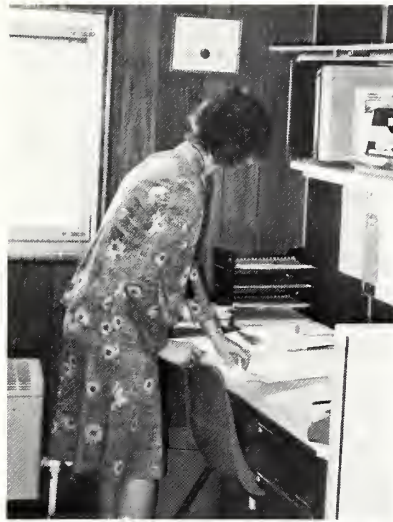

Robert Jensen is the Academic Dean. You may have seen his car around campus, it is the one with the KTI license plate.

# Administration

For those of you who graduate from KTI, Don Buchwald will sign your transcript. He is KTI's Registrar and Assistant Academic Dean.

Karleen Propst, Mr. Buchwald's secretary seems to be camera shy.

Advisor to SGA, counselor to students, and job finder to potential graduates are a few of Herb Petracek's jobs.

Being Mr. Petracek's secretary keeps Sandy Smith busy.

Mike Farmer is a traveling man. He travels around the state getting recruits for KTI.

Keeping track of when Mike or Elaine are going to be in to show recruits around, is part of Penny Hoffman's job.

Many people have probably heard Elaine Mills on the radio with her spot announcements about KTI.

# Operational Affairs

As KTJ's accountant, Gail Edwards job is to keep track of the school's money.

Frank Gray, with a discouraged look on his face, waits for good news on the telephone. Mr. Gray is the Director of Operational Affairs.

Work study students are thankful to Angie Vanderbilt, for she handles their paychecks.

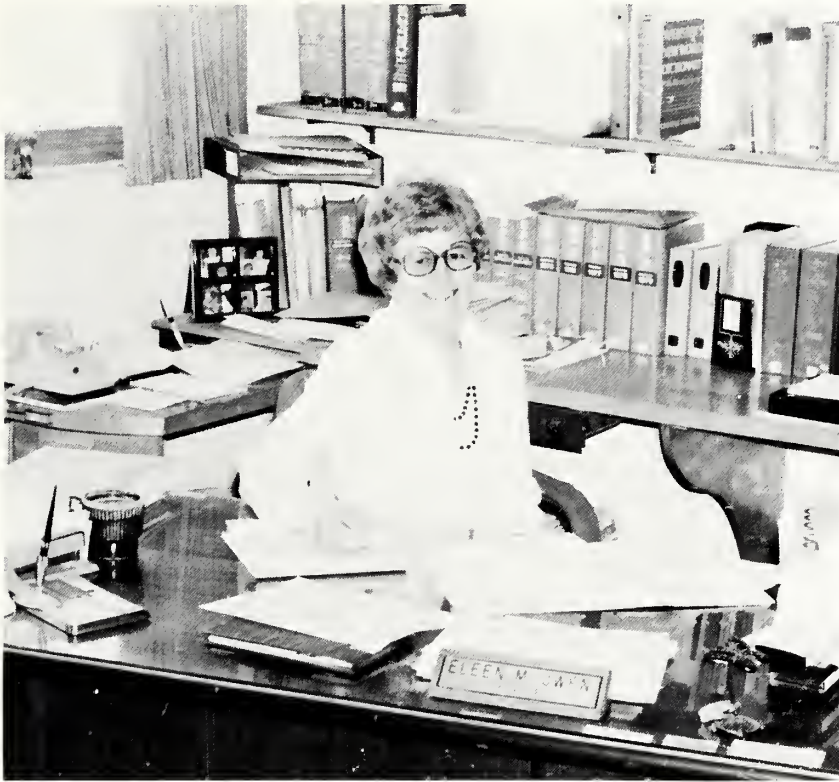

If you've ever called KTJ between 8 and 5, Lois Woods has probably been the one who answered the switchboard.

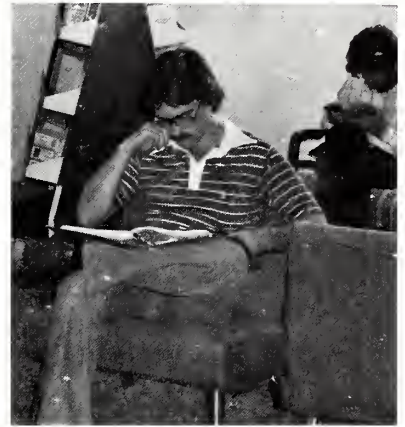

# Tullis Resource Center

Ellen Owen looks up and smiles. She is the head librarian at the James E. Tullis Resource Center.

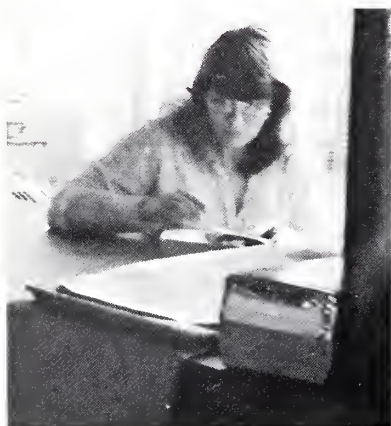

Believe it or not, students actually do use the library!

When looking for a book, Addie Johnston is always ready to help you find it.

Irene Hamilton assists students and teachers check out slide projectors and movie projectors.

# Student Union and Bookstore

Mary Staab finds time to read a book while on duty as Student Union attendant.

Many students knew and liked Brenda Pirtle. She was the Student Union attendant before her allotted time ran out.

Gordon Howes plugs his quarters and tries his luck on the new electronic game in the Union.

Shirley Jensen exams one of the T-shirts for sale in the Bookstore.

# Physical Plant

Physical Plant director Bob Smith prepares himself for a full day of activities.

Marjorie Sterling keeps the Physical Plant crew up-to-date on what needs to be done.

The Physical Plant crew that keeps the campus in tip-top shape.

# Cafeteria Staff

Roger Smith waits hungrily for his food!

KTI changed food services this year. American Food Management serves KTI and the Highway Patrol. Mary Carpenter is the manager who keeps things cookin'!!

Serving breakfast and lunch to the guys who live in the dorm is a big job. But these seven people have managed to do a pretty good job, while the evening and weekend meals are served by another group of part-time employees.

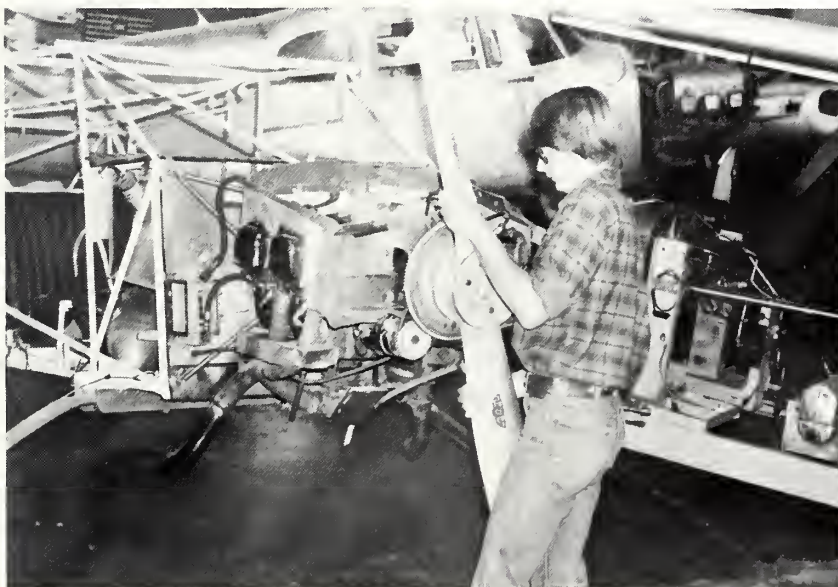

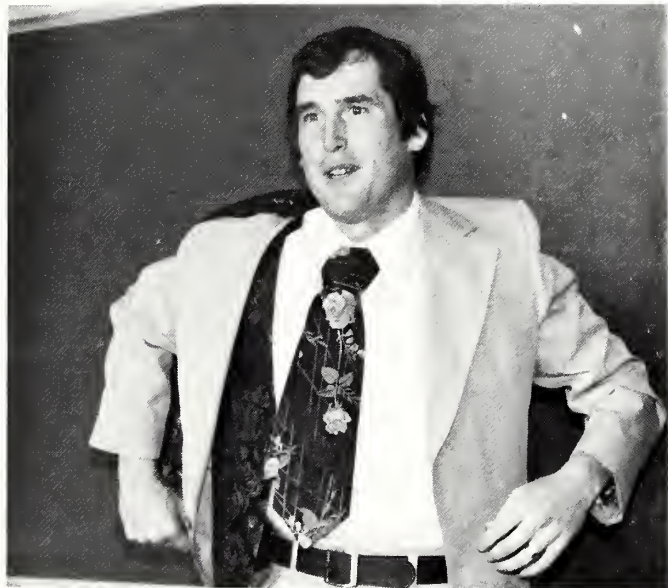

#### ACTIVITIES AT KTI . . .

. . . To shave or not to shave! Joe Davis and Bob Porter couldn't decide whether to shave or not. So they compromised, they each shaved half . . .

. . . Les Kinsler proved that you actually can take your vest off without your jacket leaving your hands. That's Incredible! . . .

. . . Thor Corvell has taken on the task of rebuilding his own plane. He stripped his plane completely down and rebuilt it.

# Student Governing Association

SGA officers and representatives are from l. to r.: Back row, Kevin Conant ET, DeLynn Mowat CP, Brad Phillips GT, Jerry Steele ET, Randy Mai MT, Bob Johnson GT, Brenda Lamer CV, James Conklin CV. Middle row, Gyla Carter Secretary, Mark Burris V-President, Mona Meili Student Co-ordinator, Greg Edgington President, Judy Meyer Treasurer. Front row, Scot Latham CP, James Venn AM, Jay Parker AM, Roger Roemer MT.

President Edgington takes a break from his paper work to smile at the camera.

There does not seem to be any serious business on the agenda for this SGA meeting.

SGA officers are from l. to r.:  
President: Greg Edgington  
Vice-President: Mark Burris  
Student Co-ordinator: Mona Meili  
Secretary: Gyla Carter  
Treasurer: Judy Meyer

Mark Burris is showing an air motor to members of the National ASCET Association. The air motors were designed and built by mechanical students first semester.

James Conklin, President of ASCET took members of ASCET who were here for the regional meeting on a two hour tour of our campus.

This year there are 25 members in ASCET. Bill Sanders is their sponsor. Their officers are:  
President: James Conklin  
Vice-President: James Graham  
Secretary: Jay Parker.

# Newspaper

Newspaper Staff. Back row l. to r.: Bob Porter Photographer, Perry Snowball Reporter, Bob Scammell Treasurer, Dale Sullivan Advisor. Front row: Mona Meili SGA Reporter, Gyla Carter SGA Reporter, Kora Jones Editor, Carol Dupree Advisor.

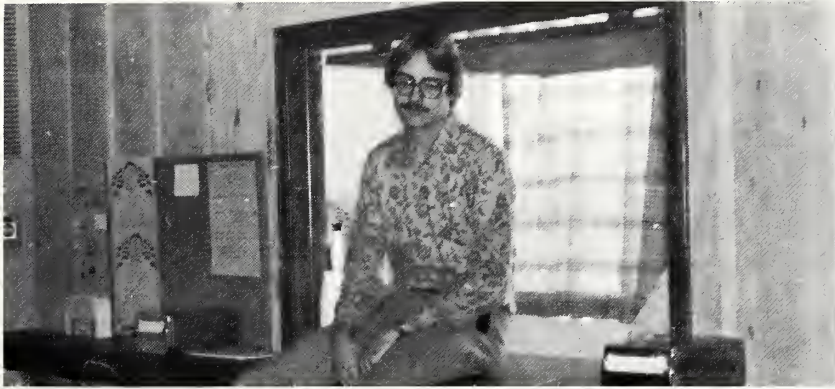

At right Kora Jones, editor, demonstrates how she does a layout. The steps the newspaper go through to put out a student paper are:

1. Gather stories.
2. Take pictures for major stories.
3. Typeset stories to fit columns. Consolidated does this step.
4. Prepare layout.
5. Shoot negatives.
6. Prepare plates. Steps 5 and 6 are done by Elaine Mills and Vo-Tech.
7. Papers are printed by the KTI Print Shop.
8. Papers are then distributed to technologies.

# Tau Omicron Tau

Perry Snowball is sitting on his creation. For TOT's project this year they decided to design and build a service counter for the Student Union.

TOT's officers. L. to r.:  
 Advisor: Ken Stueve  
 Treasurer: Jim Brotton  
 Secretary: Kora Jones  
 Vice-President: Dave Jones  
 President: Bill Rutz

TOT members are from l. to r.: Steve Reavis, Duane Harvey (and son), Perry Snowball, Bob Porter, Charles Pirtle, Dave Jones, Greg Edgington, Gregg Snell, Tim Goossen, Jim Brotton. Middle row: Bill Rutz, Gloria Sexson, Kris Thompson, Jolene Short, Abad Gonzales, Elaine Stucky. Front row: Gregg Lindberg, Terri Teague, Gyla Carter, Karla Little.

# Yearbook

Editor Terri Teague actually found time out from putting the yearbook together to get her picture taken.

Gyla Carter and Kerry Kendrick lay out pages as Terri Teague types the type sheets for them.

Yearbook members, l. to r.: Back row—Scot Latham, Greg Lindberg, Steve Reavis, Roger Smith, Bud Peterson. Front row—Gyla Carter, Terri Teague, Karla Little, Junior Gonzales. Mr. Peterson is the Yearbook Advisor.

## Other Clubs

Members of the Christian Student Association met over their lunch hour. They read lessons from the Bible.

Members of Civil Club work hard on preparing their concrete canoes. They raced them in Manhattan on April 25, 1981.

# Other Clubs

Freshman Wingnuts decided to revive Model Club and began by flying radio controlled airplanes.

Sharing a common interest in taking pictures, Photo Club formed to teach those who wanted to learn how to operate 35mm cameras. They would like to enter all of their great photos in a contest!

# Freshman Orientation

During Freshman Orientation several participants take on the faculty in a volleyball game.

Les Blount in a tie??? How else can he impress the freshmen!

Mac Ashburn gives some insight as to what the freshmen can expect during their two year study of Mechanical/Solar Engineering at KTI.

# Parent-Alumni Day

Kelly Hadley explains concrete mix design to his parents.

Bob Johnson and Brad Phillips show off Physics Lab equipment in their new white coats.

A Mechanical student demonstrates advanced "sand box" technology.

# Homecoming—Egg Race

Homecoming candidates are l. to r.: Bill Rutz, Karla Little, Gregg Snell, Sharie Ballantyne, Terry Loveland, Debbie Prickett, Kent (Gator) Dively, Stephanie Beichle, Brad Phillips, Judy Wesley, and Alan Berjfeld.

Queen Judy and King Terry preside over the royal festivities.

Jon Lindstrom accepts his 1st place trophy for the fastest egg race time of the day from Don Buchwald.

# Extra Activities

No they did not run out of gas!!  
These Aero students are demonstrating a new sporting event—  
Shoving a Chevette!!

Dennis Shreves asks Roger Smith,  
“Why are the other runners going  
the wrong way?”

Student Activity Council brought  
a new and interesting form of  
entertainment to campus. As  
Micah and Laura, professional  
Mimes, did their thing.

# Concrete Canoe Race

Dear Lord please don't let our canoe break before we finish the race.

I sure hope this baby floats!

Kansas Tech fans line the banks of Tuttle Puddle.

Jan Jensik and Roberta Griffin paddle to a 4th place finish.

# Spring Banquet

I'll take some of this and some of that. Boy that looks good.

A little spice was added to the program when Dennis Shreves stripped!

Ray Woodson lets Mark Burris know he is loved, but he didn't say by whom.

# Semi-Formal Dance

The Rex Hedding Band performed at the Semi-Formal dance.

Mona Meili is not camera shy.

Several KTI students, faculty, and their guests enjoyed some dancing after the banquet.

As with any party, the action improves as the hours go by.

# Spring Olympics

Judy Wesley prayed for a quick ending. She was relieved as her team galloped to first.

A jail was the new attraction at the Spring Olympics. Judy Wesley gives the cell mates their shower.

Olympic participants take a short break between events.

# Spring Olympics

Kevin Conant prepares to throw the first of his feeble attempts.

DeLynn Mowat demonstrates the proper form for the cylinder throw.

Watch out for low flying aircraft because here it comes.

# Spring Olympics

There is a right way and a wrong way to toss a broom. This is definitely the wrong way.

Right. Left. Right. Left.

Oh darn! I got a run in my hose!

# Spring Olympics

Ray Woodson demonstrates his version of "hanging loose".

No telling who or what will pop out of holes these days.

Scot Latham struggles to finish the last leg of the obstacle course.

Kendal Rohr attempts to smile after winning the obstacle course.

# Football

Gotcha!

Here Paul, you take it. I'm too young to die.

My flag, not my pants.

Down, Set, HIKE!

# Basketball

David Joss goes for two.

Mark Burris, above, you forgot your right guard.

Will it make it?

# Bowling

League bowling was an added sport this year.

David Jones concentrates on the pins.

Curve ball.

Curtis Voldrich waits for a strike.

# Winners

Smiling faces tells you who won the bowling tournament first semester.

Annette Klein, how did you manage to get to bowl with three guys? These four won the second semester league.

The Chicken Chokers "choked" their way to 1st place during the football season and homecoming.

# Winners

The post season basketball tournament was won by members of the AERO team.

Winners of the Novice Bracket of the racquetball show off their trophies. Kendal Rohr and Charles Pirtle placed in both tournaments.

These are the good guys. They are the winners of the Expert Bracket of the racquetball tournament. Brian Bell and David Joss placed in both tournaments.

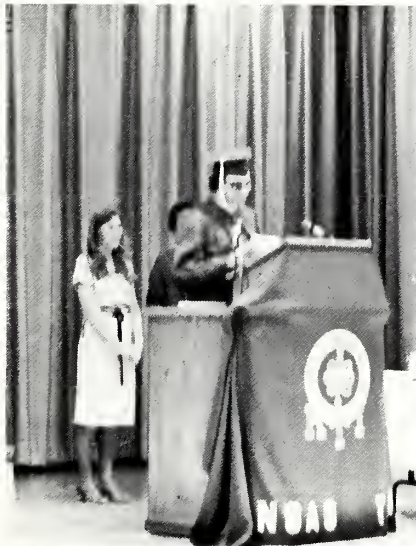

# Graduation

Terri Teague accepts her award for participation as editor of the 1981 yearbook.

David Jones gave a "small" acceptance speech for his award of outstanding senior in the Electronics department.

President Creech gave a special mallet and plague for a job well done by Greg Edgington, SGA President.

Ushers for graduation are from l. to r.: Janet Roof, Judith Wesley, Jon Lindstrom, Le Ann Brandyberry, and Gregg Lindberg.

# Graduation

The Data Processing department shows they know how to play "follow the leader" during rehearsal.

Bill Powell announces his Civil students as the rest of the faculty watch.

Regent Pickert addresses the Class of '81.

Even the faculty members can play "follow the leader", but this was for real.

# Graduation

Can you believe it's finally over? Graduated seniors and friends enjoyed the fresher, cooler air outside for reception.

Faculty wives, above, set up the reception table and did a good job on it.

Tim Wann, left, adds a western flair to the graduation cap!

# Alumni Picnic

Sandy Smith discusses the water temperature with the guys.

Getting closer to the truth.

One, two, three,—SPLASH!

I was hired for my looks!

A quiet ride on the lake.

Hey you guys, I think we lost something.

## Fans

He who has a thing to sell  
and goes and whispers in a well,  
Is not so apt to get the dollars,  
As he who climbs the tree and hollers.

—Anonymous—

# We've Only Just Begun

We've only just begun to live  
White lace and promises  
A kiss for luck and we're on our way

Before the rising sun we fly  
So many roads to choose  
We start out walking and learn to run

And when the evening comes we smile  
So much of life ahead  
We'll find a place where there's room to grow

We've just begun  
Sharing horizons that are new to us  
Watching the signs along the way  
Talking it over just the two of us  
Working together day to day

Paul Williams
